# User Feedback for Prototype Version -1

- **Interview Script**

We'll do usability testing during this interview to get your feedback on the updated version of our app.

As a result, we'll go over the flow of the UI prototype we created for our new design.

I'd like you to think aloud while you move through the app's flows and express your views on it.

Please feel free to provide more recommendations so that we may continue to develop, and. If you get stuck somewhere in the app's flow, don't hesitate to tell us.

For Feedback Interview Mr.Danushka Kalhan and Miss. Hansani Ferdinan Join with Us.

As First step we showed them our designed Prototypes and asked them what do they think about it. Then they give us a small feedback and ended the interview.
